

AIM on Demand

The **Mobile AIP app** is the launch product for the AIM on Demand platform. AIP was chosen as this is by far the most widely used aeronautical information resource.

The next stage for the AIM on demand platform will be the release of further mobile aeronautical information products. These will include other smartphone applications and mobile enabled webservice.

*“AIM:
the right digital
Aeronautical Information,
at the right place,
at the right time.”*

- EUROCONTROL

Make your AIP mobile

Are you an AIS provider? Mobile AIP and Mobile VFR are designed for displaying aeronautical information from any aeronautical publishing system. The system currently supports pdf AIP/VFR content, there will soon be support for html eAIP content.

Get in touch with us to find out about the benefits of Mobile AIP and Mobile VFR for AIS providers, including increasing subscriptions, improving control of online AIP/VFR content and growing your organisation's profile.

AERONAUTICAL INFORMATION IN THE PALM OF YOUR HAND

AIM on demand: Mobile AIP
from Managed-AIS

What is Mobile AIP?

Mobile AIP from Managed-AIS brings aeronautical information into the 21st century by letting you find and read aeronautical information publications on your smart phone, tablet or other handheld device.

Now you can view aeronautical information anywhere, anytime.

Aeronautical Information Management on demand

Aeronautical Information Management (AIM) was developed to provide a better means of data distribution

Mobile AIP brings AIM together with fast wireless internet, and handheld devices running Android and iOS.

The right place for aeronautical information is in the palm of your hand, wherever you are.

Mobile in every sense

Recent changes in the way aeronautical information is assembled and distributed have focused on moving from paper-based operations to digital technology.

Mobile AIP takes things further. Combining the portability of paper AIP, with the convenience and data security provided by a digital device.

Find

Find AIP documents in the online library or in your favourites, search by country, AIP section and date.

Locate the documents that interest you in seconds.

Read

Make reading aeronautical information on-the-go easy, with zoom, in document search and optimised reading layout options.

Save

Add AIP documents to your favourites so you can view them offline.

Create your own portable document bag of aeronautical information.

Update

Receive notifications when documents are updated.

Subscribe to receive updates automatically so you always have the latest information.
